TREACHER'S GINGER ALE, is highly aromatic and pleasingly pungent to the palated the various ingredients of which it is composed are proportioned to a nicety, and the utmost care and cleanliness ("as with all our Aerated Waters") are exercised in its production.

TREACHER'S LIME-ADE, is a delicious carbonated preparation of the Montserrat Lime Fruit Juice, an antiscorbutic, blood-purifying drink of superior character, ranking as a companion to our much admired Ginger Ale. It is cooling and refreshing at all times, healthful and suited to the present season, and being of full citricity and flavour is palatable and agreeable both as a medicinal agent and as a beverage.

TREACHER'S SODA AND POTASH WATERS, are by the aid of steam power charged with Gas at the greatest possible pressure, and thereby rendered sparkling and agreeable in the highest degree.

TREACHER'S TONIC WATER, is unequalled for delicacy of flavour and tonic properties, each bottle containing a definite quantity of Quinine presented in an agreeable form.

TREACHER'S LEMONADE AND GINGERADE, are as flavoured waters celebrated for their freshness and delicious taste.

TREACHER'S OZO is a delightful sparkling health-sustaining beverage, a dissipator of mental and nervous affections, and a renewer of physical power.

TREACHER'S AERATED WATER, is thoroughly impregnated with Carbonic Acid Gas, and, being free from alkali, it is well adapted for admixture with Claret and Acid Wines. Alone it drinks sharper to the palate and with greater pungency than Soda Water.

COMMERCIAL INTELLIGENCE

TUESDAY EVENING, SEPT. 20.

THE easier tendency in the London Money market becomes more marked daily, Reuter's advices of yesterday showing a favourable movement both in the Paris and New York rates of exchange, whilst rates of discount in the open market show a reduction of ½ in 3 months', and ½ per cent. in 4 months', paper, which are now discountable at 3½ and 3⅝ per cent. respectively. Consols, singularly enough under the circumstances, come ¼ lower at 99½, and the 3½ per cent. Indian Sterling Loan is down again to 101 ; but other securities are better,. French Rentes being ¼ higher, whilst Enfaced Rupee Paper is ¼ higher in Fours and ¼ in Fours-and-a-half. Chartered Bank shares are quoted 10s. lower, and Hongkong £1 higher.

In the Produce markets the movements reported are not very important. Coffee is partially 2s. per cwt. higher, Cocoanut Oil unchanged. Linseed and Rapeseed are both quiet, with a partial decline of 3d. Wheat is firmer again for Calcutta qualities in London, with an advance of 6d. to 1s. per quarter ; but Liverpool quotations for Bombay kinds are unaltered.

Piece-goods in Manchester are reported quiet but steady in the public telegram ; but according to private messages, the staple makes of shirtings are higher owing to the prospect of diminished reduction.

The Liverpool cotton market continues quiet, the sales yesterday being only 6,000 bales ; but prices remain unchanged all round. In New York yesterday, notwithstanding comparatively moderate receipts, ready Mid.-Uplands yesterday receded ⅛, Deeember shipment 15 points. The receipts at the U.S. ports to date give the following comparisons :—

	1881.	1880.	1879
Two days' Receipts.....	17,000	30,000	26,400
Three days' do.	33,000	47,500	43,300
Total since 1st Sept	213,000	232,000	164,000

The Bank of Bombay return for the week ending on Saturday shows the following changes :—

Public Deposits at Head Office	Dec.	Rs.	3,24,029
Do. do. Branches.....	Inc.	,,	2,69,357
Other Deposits	Inc.	,,	2,68,907
Government Securities	Inc.	,,	18,377
Loans	Dec.	,,	13,09,820
Bills Discounted	Inc.	,,	15,652
Cash with Correspondents	Inc.	,,	2,83,754
Cash and Currency Notes	Inc.	,,	6,19,604

Although the increase in the Cash Balance is comparatively small, it is satisfactory as being a move in the right direction, and the more favourable that it arises from a reduction in the large amount outstanding in Loans. It is to the heavy, and to a great extent unrealisable, lock-up under this head that the late stringency has been mainly attributable ; and should it go on being reduced, whilst money at the same time is coming in through the Exchange Banks, it may be that we may see a reduction in the Bank minimum again before long. As it is, money outside is now a shade easier than it was.

EXCHANGE.—Owing mainly to the tenor of the Calcutta advices sterling rates opened weaker this morning, with a decline of 1-32d. During the day, however, the feeling has been very steady at the reduction, and there are no symptoms apparent of any very important downward movement following. On the contrary the respective positions of our import and export trades rather point the other way. We quote at the close :—

Bank Bills on demand	..	1s. 7 27-32d. per rupee.
Do. telegraphic	..	1s. 7 13-16d. ,,
Do. 3 months' sight..	..	1s. 8d. ,,
Credits, 3 ,, ,,	..	1s. 8 1d. ,,
Documents, 3 ,, ,,	..	1s. 8 5-32d. ,,
Francs 3 ,,	..	2 13 ,,

On Calcutta we quote demand drafts at par to 1-16 per cent. premium, 60 days' sight at ¼ per cent. discount.

GOVERNMENT PAPER.—The better quotations from London, coupled with the distinct signs of easier money here, have exercised quite a strengthening influence on the market to-day, and a fair business has been done, rates recovering to Rs. 101 for Fours and Rs. 110 for Fours-and-a-half. Small pieces of the former have even been done at ⅛ to ¼ higher, and although there is no excitement apparent, a steadier tone altogether is observable.

SHARES.—With the exception of Bank of Bombay's which have advanced to Rs. 735, the market generally has been dull, and values in some cases lower. Colaba Land shares are down to Rs. 870, and Port Cannings to Rs. 210. Press companies are dull, and Rs. 2½ lower in New Indian, Rs. 2½ in Sind. Spinning and Weaving mills are flat, and occasionally Rs. 5 to Rs. 10 lower. Bombay Saw Mills have declined to Rs. 540.

COTTON has been quieter to-day, and sellers in some cases are more willing to do business at an occasional concession of Re. 1 per candy. This, however, is not sufficient to enable exporters to bring in their limits, and next to nothing has been done.

SEEDS are quiet but firm at previous prices. WHEAT is in active request, but the enhanced rates of freight ruling prevent any advance in rupee prices. Arrivals are large, and likely to increase as the rains come to an end.

FREIGHTS continue to show great firmness. For Liverpool 45s. is now asked for Wheat, immediate shipment, and 40s. for Cotton. No fresh charters for future loading are reported, although there is a fair enquiry for tonnage at a comparatively full rate.

PIECE-GOODS are as dull as ever on the spot, but for distant delivery there is a moderate enquiry. Actual business, however, has only resulted to a limited extent owing to the firmness in Manchester.

COALS are quiet but steady at previous prices.

WEDNESDAY, SEPTEMBER 21, 1881.

GENERAL GARFIELD'S death sends a thrill of sadness through the whole wide world. Had he died a martyr in some great cause, or fallen a victim to fanaticism born of political delusion, a feeling of vexation would not mingle with the profound sorrow which we all experience. The mind is deprived in this cruel fatality of the only consolation possible—that of feeling that the valuable life which has been sacrificed, has not been sacrificed uselessly, as well as ruthlessly and wantonly. But General Garfield passed unscathed through the perils of the great civil war, only to die from a cowardly personal attack, incited by a sordid revenge. His fate is the more pathetic seeing that his life was prolonged in agony for nearly three months, during which his strong constitution, sustained by an indomitable and heroic spirit, battled with death, and seemed until the last likely to prove the victor. The touching devotion of his wife, her firm and intrepid faith—destined, alas ! to such bitter disappointment—evoked the universal sympathy of the civilised world for the stricken President, and now intensifies the grief with which the announcement of the fatal close of the long and anxious struggle is received in all lands. Yesterday the news of the death of the President of the United States was received in Bombay, by natives and Europeans alike, as if a great domestic [illegible]liction had befallen us all. There is no [illegible]t—judging from evidences of the feel-[illegible]oked when first Guiteau's dastardly [illegible]came known—that the sentiment of grief which prevails in this city is shared by all India. If the sympathy of the people of this Empire can, in the hour of cruel affliction, assuage the sorrow of the widow of the murdered Chief Magistrate of the Great Republic, it is freely hers.

General Garfield was elected to the office of President in November last, and was inducted into office on the 4th of March of this year. He had therefore been in office one day short of four months when he was struck down. Before his nomination at Chicago, about a year ago, his name had not been mentioned in connection with the Presidency ; and he was finally selected at the convention, as one upon whom the opposing divisions of the Republican party could unite, when it was evident that neither Grant, nor Blaine, nor Sherman, the prominent candidates, could secure a nomination. One quality which commended him to his countrymen was his strict integrity—a quality which has not been too common among public men in America since the civil war. While his term of office has been too short to enable one to predict the success of his administration, it had been made conspicuous by his firmness in withstanding dictation from the State party leaders. It is difficult for one brought up in any other country to realize the effect of what is called the "spoils system" in America. Under the plea that "to the victor belong the spoils," a new President, on entering office, has the recognized right of turning out the occupants from every Government office in the country, high or low, and of putting in his own friends or supporters ; and this right has been exercised since the days of General Jackson in 1829. The number of office holders was estimated by General Garfield himself a year or two ago at about one hundred thousand. Those politicians who assist materially in the election of the President expect their rewards in appointments to office. Of course, it is impossible that the President himself should be in a position personally to have friends to fill the thousands of offices in a country of the extent of the States, and the nomination to the public offices in each State are in a great measure left to the party leaders in that State. The most lucrative office in the Republic is that of the Collector of Customs at New York, the incumbent of which gets, by salary and perquisites, an income probably as large as that of the President himself, or about $50,000 a year (£10,000). This office is naturally considered a prize in a country which pays the Chief Justice of its Supreme Court a salary of only $10,500 (£2,100) ; and this, too, when a successful lawyer can make a yearly income of $100,000. Mr. Evarts, the Secretary of State under the last administration, received $20,000 (£4,000) for one fee in an important suit on the division of the great Vanderbilt property.

In bestowing the appointment of Collector of New York, President Garfield only exercised the power given him by law, in nominating a friend of his own to the post. This gave great offence to Mr. Conkling, the leader of the Republican party in New York, who wished to have one of his friends appointed. As the nominations of the

We have been asked to announce that at a meeting of the theatre sub-committee a series of telegraphic communications were submitted with reference to the engagements of two burlesque actresses. JUDGMENT was given by the Hon'ble Mr. Justice Bayley at the High Court yesterday in the matter of a claim amounting in the aggregate to Rs. 4,19,095 made by Mr. Cursetjee Nusserwanjee Cama upon Messrs. H. R. Cormack, Nowrozjee Furdoonjee, and M. R. de Quadros, the official liquidators of the Colaba Spinning and Weaving Company, to which the claimant, jointly with Nursey Kessowjee, was an agent. His Lordship was of opinion that the company never promised to pay commission as agent to Mr. Cama individually. The claims during the lives of Nursey Kessowjee and Mr. Cama could only be made by them jointly; and this objection, among others, was deemed fatal to the present claim. The company had a right, under the articles of association, to the personal services of both the agents; but Nursey Kessowjee rendered this impossible by absconding from Bombay, and by his subsequent arrest and imprisonment. His Lordship threw out Mr. Cama's claim, with costs.

THE *Pioneer* hears from independent sources that Kudus Khan has undoubtedly succeeded in placing himself with a force between Kandahar and Herat, thus imperilling Ayoub's retreat. The news has been confirmed, not only from Herat *vid* Persia, as stated in the official telegrams, but also from Kabul and from Kandahar itself.

IT is stated that the cause of Major Dudgeon's death at Srinugur was dysentery and blood poisoning, brought on by drinking water from a condemned well.

COLONEL R. D. OSBORN, the new lecturer in Indian History to the University of Cambridge, is evidently not favoured with the patronage of the *Pioneer*. Our contemporary pays the colonel the following compliment:—"Indian civilians who may finish their education at Cambridge will probably arrive in Bombay with some extraordinary ideas regarding this country and its history."

A NEW portable camp filter has been issued under the orders of the Quartermaster-General in India to all divisions in the Bengal Presidency, for the use of troops on the line of march and in cholera camps; but at present it is not intended for use in barracks. These filters are being supplied by Messrs. Crowley and Co. of Allahabad.

MAJOR WATERFIELD, lately appointed Second-in-Command of the 2nd Native Infantry, will continue to officiate as Assistant Adjutant-General of the Allahabad Division until further orders. Should Lieutenant-Colonel T. Baker obtain the command of the regiment, which becomes vacant on the 29th October next, Major Waterfield will, it is believed, obtain the substantive appointment; and will probably be brought on the establishment as Assistant Adjutant-General on the 1st December next, *vice* Lieutenant-Colonel H. Thompson, whose time then expires.

IT is the opinion of the *Pioneer* that the rising generation of officers show clearly how strong is their intuitive repugnance to the existing distinctions between the three presidential armies. The Allahabad paper believes at this moment there are more than fifty vacancies in the Madras Staff Corps, a considerable number in that of Bombay, while a crowd of applicants await vacancies in the Staff Corps of Bengal. The Bengal army is in fact, at present, the army of India,—the others are appendages cut off, by the conditions of their existence, from the opportunities of usefulness which offer themselves to the force under the immediate direction of the Government of India.

IN consequence of the disturbed relations existing between French and British subjects in Newfoundland, we understand that it is proposed to appoint a greater number of magistrates along the coast, so as to preserve order.

AMONG the Irish business to be brought before Parliament next session will be a Bill to repeal the Acts in force prohibiting the cultivation of tobacco in Ireland. During the recess arrangements have been made for the collection of information and statistics on the adaptability of the Irish soil for the growth of the plant. It is not proposed—should the cultivation of tobacco be resumed in Ireland—to exempt it from duty.

FROM careful estimates which have been made at the French vineyards, it appears that no extraordinarily large output of wine is expected for the present comet year. The total anticipated yield for the 75 departments where the grape is cultivated is 32,004,816 hectolitres. It remains to be seen whether the quality of this wine will justify the popular belief in the influence of comets upon the vintage.

A NUMBER of cannibals from Tierra del Fuego are at present at the Jardin d' Acclimatation in Paris. These savages, who belong to a race which probably represents the lowest known type of human beings, are described as exceedingly repulsive both in appearance and habits. The sight of a photographic camera caused them considerable alarm, and it was with the utmost difficulty that they could be persuaded to sit for their portraits.

THE *Egyptian Gazette* states that on the 30th ultimo four Indians enjoying British protection, residing at Kaft-Zayat, having had some dispute with the Marmoor as to payment of taxes, were forcibly taken by soldiers from their shops, and imprisoned until the afternoon of the next day, their shops having been left open and at the mercy of the public. This case has made some stir in the neighbourhood, and is now under the consideration of the Consular authorities.

SIR R. CROSS, speaking on September 1 at a luncheon at the opening of the Manchester, Liverpool, and North Lancashire Agricultural Society's Show, said he should be glad to see tenant farmers relieved from some of their burdens, and he trusted they would obtain some relief in regard to the rating upon land. The right hon. gentleman added that he and his friends would be very careful that additional burdens were not imposed upon them.

A TELEGRAM from Alexandria, September 2, states:—It is confirmed that the object of Mr. Malet's mission to Constantinople was to demand the despatch of Turkish troops and a Turkish squadron to Egypt in the event of a military outbreak. The latter is, however, now improbable, the threats of a Turkish occupation having had a salutary effect. The present Ministry will remain in office. All statements to the contrary are authoritatively contradicted.

THE official statement of grain stocks in Liverpool has just been prepared. It shows the gross stock of wheat of all kinds to be 762,939 centals, against 1,409,650 centals at the corresponding period of last year. The stock of white wheat is 434,661 centals, of red 264,307 centals, and of lower qualities 63,971 centals. The stock of Indian corn is 560,337 centals, against 243,339 centals last year; flour, 85,673 sacks and 3,682 barrels, against 58,587 sacks and 9,916 barrels.

AN Oldham telegram to the *Evening Standard* of the 2nd September states that eight cartridges have been discovered in a bale of cotton which was consigned to an Oldham mill. They were marked "U. S." It appears from a telegram received by the Central News that the cotton in which the cartridges were found came from America, and the impression is that the intention of those who placed it there was to set fire to the mill.

DEAN STANLEY has left £84,000 behind him, and the text of his will has just been published. He gives sums of money to between thirty and forty persons, as well as £3,000 to the Dean and Chapter of Westminster—a portion of which is to be applied to the abolition of the fees now charged for visiting the Abbey—and £500 to the Westminster Nurses' Home. One of the residuary legatees is Dean Stanley's successor, Dr. Bradley. His papers and manuscripts are left to the Rev. Hugh Pearson Rhondeare Walrond, and Mr. George [illegible] These gentlemen, if they have any [illegible] of what is to be [illegible] queen, if they have any [illegible] ments, are authorised to confer with the Master of Balliol, the Master of the Temple, and the new Dean of Westminster.

THE Lord Chancellor has addressed a communication to the Town Clerk of Macclesfield, enclosing the following gentlemen from the Bench, and removing the Peace for that borough:—Mr. W. Brocklehurst, ex-member; Mr. Geo. Godwin, Mr. Brocklehurst, Mr. Hordern, Mr. John Stringer, and Mr. Thos. C. A. With the exception of Mr. Brocklehurst, all are Conservatives, and were scheduled by the Royal Commissioners as guilty of bribery at the last election. The Lord Chancellor has removed Mr. Alderman J. Knight, Mr. Edward Yewsmith, Mr. John Barnard, and Mr. Albert Buchanan from the Commission of the Peace for Gloucester. All these gentlemen had been scheduled for bribery at the last General Election. Mr. Alderman Knight, who has been Mayor of Gloucester, is a Liberal; the other three are Conservatives.

THE Paris correspondent of the *Daily News* shows the anti-Gambettist journalists of that city in the enjoyment of some innocent, if simple, mirth. M. Gambetta's candidate for Charonne, in opposition to M. Tony Révillon, the novelist, is a M. Sick. The word had an English look, and M. Gambetta's enemies on the Press flew to their English dictionaries. Great was their delight when they found what the name of the Opportunist politician signified in a foreign tongue. M. Rochefort, either because Mr. Parnell had not taught him enough English, or because he wished to air his classical knowledge, has ungraciously brought together two Latin quotations to describe M. Sick's feelings before and after the election. "Thus does one go to the stars," says M. Sick at present. "So do you build for others than yourselves," he will say next week. *Sic transi gloria!* has apparently not occurred to M. Rochefort, though some of the writers who have been doing us the honour to study our tongue may, perhaps, in the plenitude of their researches and the lambency of their wit, apply the two first words to the passage of the Channel.

THE following declaration, signed by officers of the Egyptian army, has been published in the *Moniteur Egyptien*:—The general officers and superior officers of the army, forming the Supreme Military Commission, have read with grief several articles in the newspapers which calumniate the Egyptian army in declaring it to be in a certain condition of indiscipline, and especially an article published in the *Phare d'Alexandrie* of the 26-27 August, 1881, No. 197, which, under the form of correspondence from Cairo, states that the officers and soldiers had refused to march in a case where the Council of Ministers is alleged to have ordered the movement of certain troops for the protection of the country. The army cannot remain indifferent to such a calumny, which is void of foundation, and cannot consent to be the toy of interested persons who are badly disposed towards Egypt. The army begs the Minister of War to protect it against similar calumnies. This protest is dated the 30th August, 1881, and is signed by six generals, five colonels, and three lieutenant-colonels.

IN criticising Lord Hartington's Budget speech, the *Economist* says:—"Lord Hartington spoke of the import duty on cotton goods as one destined to be removed speedily. India, a country in which but few import duties can be levied, will part reluctantly with any of them, but a duty having even the semblance of protection cannot long remain in force, and the recent reductions of the tariff have rendered its retention impossible. In a country so fixed in habits, and with a population of which so large a proportion is extremely poor, alterations in taxation must be made with the greatest caution. Still some improvement among them may be attainable. Of the taxes levied in India, the salt tax may be regarded as the one which presses most severely on the masses of the people. It is possible that the tax might be reduced, and yet the yield to the Exchequer remain the same. Experience has often shown that a reduction of an impost may be accompanied by a maintenance of the revenue obtained, or sometimes even by an increase. No tax levied in Great Britain is strictly analogous to the salt tax; the one which approaches nearest to it, as imposed on an article of universal consumption, being, perhaps, the tea duty. In respect to the tea duty in this country, it is worth notice that the amount raised is now rather more than that received forty years since, when the tax was more than four times what it is now, the consumption having increased in the same proportion. The impetus given to our trade generally through the increased business done in this article alone must be something enormous. It is possible that some stroke of the same kind may be within the power of the Indian Minister of Finance, and that he might by a judicious lowering of the salt duty obtain as great a net revenue as that received at present, besides conferring a great advantage on the mass of the people."

BOMBAY.

TO-DAY.

Divine Service, Prince's Dock, 8 p. m.

Concert, Town Hall, 9 p. m.

VESSELS ARRIVED.—The following vessel arrived on the 19th:—Burmah (s), from Bussorah. Yesterday:—Adria (s), Hongkong.

VESSELS SAILED.—The following vessels sailed yesterday:—Malwa (s), to Venice; Wistow Hall (s), Liverpool.

TOWN COUNCIL.—At the weekly meeting of the Town Council held yesterday no business of public importance was transacted.

ADDITIONAL PASSENGER BY THE HOMEWARD MAIL.—Captain R. H. Daniell was an additional passenger for Southampton by yesterday's mail-steamer.

AURANGABAD, DECCAN.—We learn that the crops in this district are suffering for want of rain. Should the latter rains fail, a failure of crops will be the result; also a dearth of water.

CARRYING EXCESS PASSENGERS.—Abdool Rozac Bhawoodeen, tindal of a boat, was yesterday fined Rs. 10 by Mr. C. P. Cooper for carrying a greater number of passengers in his boat than it is licensed to carry.

MILL ACCIDENT.—Rowjee Mahadoo, an employé of the Kaisir-i-Hind Flour Mills, had his right forearm fractured by the belting of some machinery on Monday last. He was at once removed to the J. J. Hospital.

HARBOUR ACCIDENT.—Abdool Edoo, a servant of the second officer of the B. I. S. N. steamer Abyssinia, was accidentally knocked into the hold of the ship by a sling striking him, and sustained a severe compound facture of the lower jaw.

A PENNY-READING.—There will be a penny-reading in the St. Peter's Boys' School-room, Mazagon, on Thursday evening next. These social gatherings are a source of great enjoyment to the inhabitants of Mazagon, and are the means of bringing together those who otherwise would be strangers to each other in the parish.

REFRACTORY SEAMEN.—John Kelly, John Carney, Joseph Tyrell, and Joseph Sheridan, seamen of the British ship Athena, were yesterday convicted by Mr. C. P. Cooper of wilful disobedience in refusing to do duty on board their vessel. They were each sentenced to two weeks' rigorous imprisonment and to pay the costs of the prosecution.

MDLLE. DORÉ'S CONCERT.—Mdlle. Emilie Doré gives the second of her concerts at the Town Hall this evening. The three young ladies who compose her company have already scored an undoubted success on the occasion of their first appearance among us, and it is reasonable to express the hope that people who enjoy classical music, faithfully and artistically rendered, will avail themselves of the opportunity now offered them. The programme of the concert appears on another column; it will be seen that it contains some favourite pieces.

THE DHOND AND MANMAD STATE RAILWAY.—A correspondent writes:—"We learn that the G. I. P. R. Company will take over the entire management of this line, including the construction, at the beginning of next year. The intermediate station-houses, it is expected, will be completed ere long, as they are in active progress. Passengers at roadside stations find it difficult to get small change; and I know several native passengers have been detained for a day for want of a few annas' change. A native station-master on this line attempted suicide by hanging. I hear he is to undergo trial at Nuggur. Officials of the G. I. P. R. still occupy waiting-rooms, much to the inconvenience of passengers. Rain is much wanted between Yeola and Vambori to save the already withering crops."

THE BERAR CENSUS.—Mr. Plowden, the Census Commissioner for India, announces that the population in Berar at last census amounted to 2,231,565, while the Sanitary Commissioner H.A.D. declares in his official report it was only 2,186,988 in 1867, showing a difference of 44,577 souls! Who is right? Taking the Census Commissioner's figures as indisputable at the last census (1867) viz., 2,231,565, and the *increase* at 20 per cent. on average, as stated, we come to the conclusion that the population on 17th Feb., 1881, should have been 2,677,878, a difference of 6,896—not much. Take it the other way. By deducting 20 per cent. the population in 1881 only exhibits 2,136,786 instead of 2,231,565 for 1867, or 94,779 souls less than reported by the Census Commissioner! Our correspondent states that the census, on the whole, is a farce, or, to use Mr. Plowden's words, "the increase is believed to be more apparent than real."

THE THEFT AT THE B. B. AND C. I. RAILWAY WORKSHOPS, PAREL.—Ruttonjee Narayen, a carpenter, Rama Govind, a riveter, Fakeera Ebrahim, a fitter (all three servants in the employ of the B. B. and C. I. Railway Company), and Moti Laljee and Babajee Succaram, Hindoo merchants, were brought up on remand on Monday last and charged before Mr. P. Ryan,—prisoners Nos. 1, 2, 3, and 4 with stealing from the B. B. and C. I. Railway workshops at Parel on the 13th instant four exhaust copper pipes and two brass slide valves, of the collective value of Rs. 110, the property of that railway company, and prisoner No. 5 with receiving the property, knowing it to have been stolen. Upon the evidence adduced, prisoners Nos. 1, 2, 3, and 4 were convicted and sentenced to six months' rigorous imprisonment each; but there not being sufficient evidence against prisoner No. 5, he was discharged.

ALLEGED DEFAMATION.

At the Fort Police Court on Friday last, before Mr. C. P. Cooper, the case H. A. Geyer *vs.* Venayek Trimbuck Talpede was resumed, in which the defendant stands charged with defamation.

Mr. Prescot, of Messrs. Prescot and Winter, appeared for the prosecution; and Mr. Pherozshaw Mehta, barrister-at-law, appeared for the defence.

Mr. H. A. Geyer, recalled and resworn, and further cross-examined by Mr. Pherozshaw, said he did not purchase and sell a second-hand Stichwell machine before he got it in December last. He advertised machines "on the Singer system" some time after. The Stichwell to most people would appear like a Singer. (Drawings of the Singer's and Stichwell machines were put in as evidence.) The Stichwell trademark had an S. in the centre of it. He had told people that the Stichwell was similar in appearance to the Singer. He could not swear that they were identical with the Singer. He had told people that he had machines "on the Singer system" on hand. The letter dated 3rd February, 1881, was in his handwriting (produced). He had been selling Singer's genuine machines on stands of his own importation and purchase. He got them from Messrs. Sellers and Sons. He advertised Singer's treadle machines. He sold Singer's hand-machines on stands made by other makers, so that they could be worked by treadle. He thought he could swear that he advertised the stands. In the advertisement shown to him the word "walnut-wood" was altered to "teak-wood." He had made teak-wood cases in Bombay. He had not told people that they were made by him. Some items on the Singer machines "on the Singer system." There was no entry in his book of the sale of a machine "on the Singer system." He bought eight machines of Singer's make from complainant. He kept no entries of the machines he purchased. He sold three Singer's machines in December last—one for Rs. 50, the second for Rs. 60, and the third for Rs. 55. Rs. 50 was less than the fixed price of the Singer Company. In January he sold three Singer's machines; the first two he sold were treadle machines, for Rs. 65 each, on stands imported by him; whereas Rs. 85 each was the selling price of the company. These were Singer's hand machines, and he supplied them with stands. He did not tell the purchasers that the stands of these machines were not Singer's make. He sent Libuwalla, on the 19th February, to purchase five machines from the Singer Company for him. Libuwalla was a clerk at Messrs. Soares and Co. He told Libuwalla not to mention his name as the purchaser of these machines. The Singer Manufacturing Company were carrying on business at No. 6, Elphinstone-circle, before they removed to Church Gate-street. He removed to No. 6, Elphinstone-circle in April last. He had a large poster, about five feet long, of Singer's in his shop. These posters were the exclusive property of the Singer Company. He got the poster from the defendant. He believed that the agents of the company were not authorised to give out these posters. He did not think the posters would lead people to believe that he was an agent of the company. He received a letter from Mr. Patell in February last, but he had not it with him in court. (Copy of the letter was shown to witness, and he acknowledged the document to be a true copy.) The statement made by Mr. Patell in the letter was correct. Witness could not account for the wording of the quotation in the notice being different from the letter written by the defendant. He circulated hand-bills even now having the words "Singer's system" on them, but the words were struck out with a pen. He could not swear that before he circulated all his hand-bills he put his pen through the words "Singer's system."

Re-examined by Mr. Prescot.—He bought Singer's machines without the stands and covers. He bought all the machines without stands from the Singer Company in Bombay. He agreed not to sell the machines at less prices than Mr. Patell sold them. Mr. Patell was the agent for the Singer Company in Bombay, and had employed a number of sub-agents in the mofussil. His arrangement with Mr. Patell fell through on account of the letter received by him from Mr. Patell from Madras. He had never acted as a sub-agent. He had not advertised the Singer system since the letter received from Mr. Patell in April last.

At this stage the case was adjourned to the 30th instant for the production of the evidence of Mr. E. J. Taylor of Wadi Junction, who is to be examined by commission.

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.—In the Wasting Diseases of Children its efficacy is unequalled. Dr. L. C. Croft, author of "Handbook for the Nursery," writes: "I have tried Dr. de Jongh's Light-Brown Cod Liver Oil, and find that it contains all the properties which render the Oil so efficacious. Dr. de Jongh's Oil is almost a specific in many of the Diseases peculiar to Infancy and Childhood, and I have seen marked benefit produced by its use. Patients prefer it to the Pale Oils, and are able to retain it more comfortably." Sold only in capsuled imperial half-pints, pints, and quarts by all chemists, druggists, and storekeepers. Sole Consignees: Ansar, Harford and Co., 77, Strand, London.

THE LONDON, BOMBAY, AND MEDITERRANEAN BANK VS. JAITHA CULLIANJEE.

THERE was no appearance for the plaintiffs. Mr. Kirkpatrick, instructed by Mr. Bicknell, for the defendant, asked that the suit be dismissed. The plaintiffs yesterday obtained an order for examination of the defendant upon interrogatories, but upon a representation made on behalf of the defendant that the order was obtained without notice, it was cancelled. His Lordship dismissed the suit, with costs, including the costs of the last hearing.

SUITS BY THE LONDON BANK DISMISSED.

THE undermentioned suits were dismissed for want of appearance of either party:—The London, Bombay, and Mediterranean Bank *vs.* Dhurmuchund Hemchund; the same Bank *vs.* Alexander William Emmett; the same Bank *vs.* Amidas Munjee; and the same Bank *vs.* Cowasjee Heerjeebhoy Wardenwalla.

JAMNADAS BAPOOJEE VS. BHICKABHOY SAMALDAS AND OTHERS.

MR. TELANG, instructed by Messrs. Tyabjee and Dyabhoy, for the plaintiff, said the suit was brought to recover money due on an admitted account. Two of the defendants, who appeared in person, denied being members of the partnership. Translations of certain letters which proved the partnership not being ready, the case was, at Mr. Telang's request, adjourned for a week.

F. R. HOGG,
Officiating Director-General of the Post Office of India.
Simla, the 8th September, 1881.

NOTICE.

THE undersigned is prepared to receive TENDERS from parties desirous of LEASING the WATER POWER available at KHARAKWASLA, "LAKE FIFE." The available power is variable, from July to January inclusive, the minimum is about 130 actual horse-power, from beginning of February to end of April it decreases from about 130 to about 10, and during the months of May and June the power which can be guaranteed is very small. Kharakwasla is situated south-west of Poona, 11 miles from the Railway Station, with which it is connected by a good road. About 4 acres of land close to the canal are available as sites for factories, &c. In the last year the area of sugarcane grown under the Mutha Canals in the neighbourhood of Poona was 1,366 acres. This area is capable of still further extension to a probable area of 2,500 acres. Under these circumstances it is thought that the above power offers an inducement for the erection of a sugar manufactory, of which none at present exists in the Bombay Presidency.

Information regarding the actual heads and discharges available throughout the year, and all other particulars, can be obtained on application to the Executive Engineer for Irrigation, Poona. Tenders will be received up to the 15th November, 1881.

The undersigned does not bind himself to accept the highest or any tender.

WILLIAM CLERKE, M. Inst. C. E.
